Updated FCI

CKC Chair, Dwain McLean, Director Ms. Lee Steeves, and CEO Joe Mauro held extensive and lengthy discussions with the FCI Executive Committee and Executive Director Mr. De Clercq over the course of this past weekend at the Eukanuba Invitational in California. The discussions regarding FCI Circular 125 were cordial and frank. It is not expected that any further information will be made available until the CKC Board of Directors has been fully briefed, had the opportunity to hear member input at the Regular December meeting of the Board, weighed the circumstances and concluded regular CKC business. It is anticipated that an updated statement will be made early next week. If you are not receiving these updates by email and wish to be included in the next issue of The Bulletin, please login to the Application Centre, click on Account Maintenance and update your email address.
